

**CONDITIONAL REQUIREMENTS FOR  
BUILDING SERVICE CONNECTIONS**

**SECTION 16**

## **CONDITIONAL REQUIREMENTS FOR BUILDING SERVICE CONNECTIONS**

1. All required utility testing must be completed and accepted.
2. Curb and gutter and the first lift of blacktop must be constructed.
3. Initial inspection of the entire sanitary sewer and watermain systems must be completed and accepted.
4. All public utility coordinate requirements must be received from the developer's engineer. See Section 1 of the City of Lakeville Utility and Street Construction Standard Specifications, March 2006 Edition. Example shown on LV-ST-12 Standard Plates.
